

PINE COVE WATER DISTRICT
OPERATIONS REPORT
January 10, 2024

1. Production:

A. December 2023	2,198,596 Gallons
December 2022	3,802,360 Gallons
December 2021	2,604,280 Gallons

- B. Static Well #10 – 70.75
Down 1.85 feet

2. Other Items:

- A. Snowfall - First significant snowfall at the beginning of the year. About 3-4 inches, We tried out the two blowers which worked out very well.
- B. Pine Cove Park – We closed escrow on the park property and received the deed. We've since put up no trespassing signs and no snow play signs.
- C. Hydrants – We have received reimbursement from the county for the ten additional fire hydrants, and will continue the program until we can replace all the 2 ½" hydrants throughout the district.
- D. Production Sources – Well #6 is being fixed this month, once the well is scrubbed a new pump and motor will be installed.

Jeremy Potter, General Manager
